### **DETAILED ACTION**

Claims 1-66 are pending in this application.

#### ***Restriction Requirement***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-28, 53-58 and 65, drawn to an emulsion, a method of making and using, classified in class 424, subclass 400.
- II. Claims 29-52, 59-64 and 66, drawn to a powder, a method of making and using, classified in class 424, subclass 489.

The inventions are distinct, each from the other because:

Inventions II and I are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the inventions differs as being drawn to compositions having different physical properties i.e. emulsion versus a powder. Since they have different classifications they are considered separate and distinct inventions thus are restricted from one other.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 1616

***Conclusion***

Claims 1-66 are under restriction requirement.
